EXECUTIVE SUMMARY — 2023 PERFORMANCE OVERVIEW

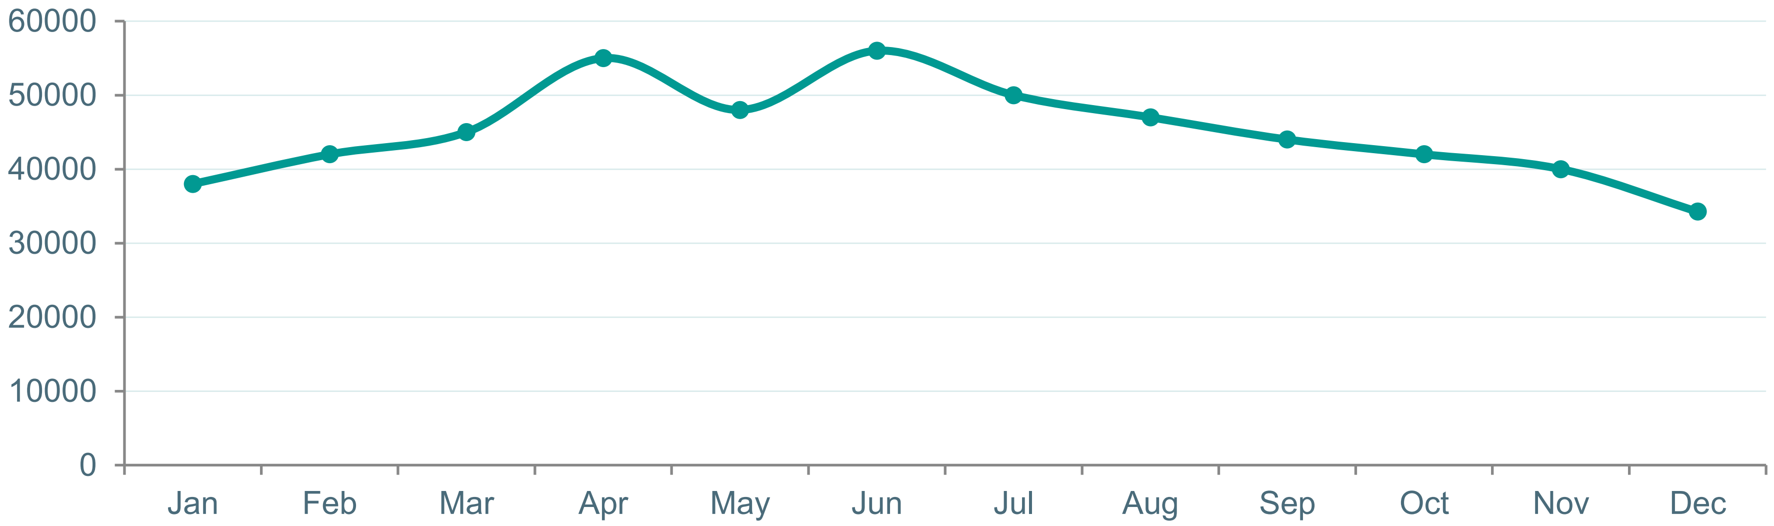
$551K
Total Revenue

23%
Appt. Completion Rate

31.5%
Payment Collection

41.6%
Central Hospital Share

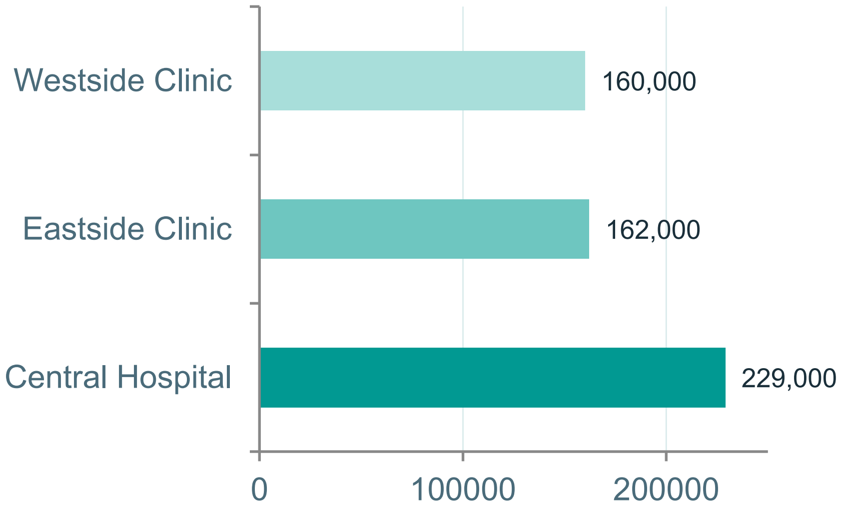
Monthly Revenue Trend — January to December 2023



Revenue peaked in June ($56K) and declined to a low of $34K in December — indicating seasonal demand fluctuations that require proactive management.

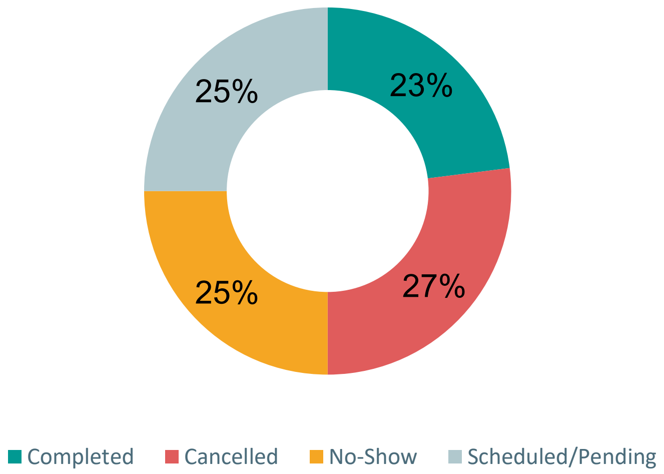
BRANCH & APPOINTMENT PERFORMANCE

Revenue by Facility



Central Hospital generates 41.6% of total network revenue — $67K+ more than each clinic.

Appointment Status Distribution

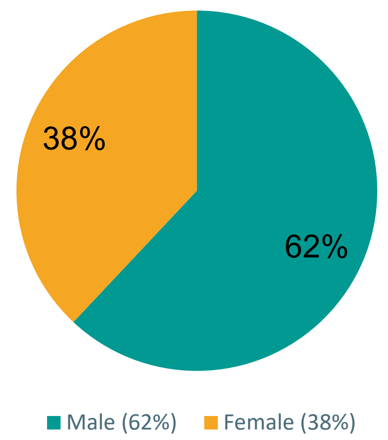


Only 23% of appointments were completed — representing 77% untapped service capacity.

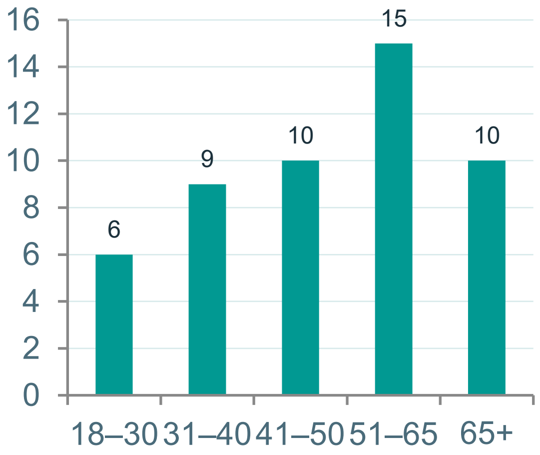
Key Insight: Eastside and Westside Clinics each lag $67K–$69K behind Central Hospital. Combined with a 23% appointment completion rate, the network loses an estimated $425K+ in recoverable revenue annually through cancellations and no-shows alone.

PATIENT & DOCTOR ANALYTICS

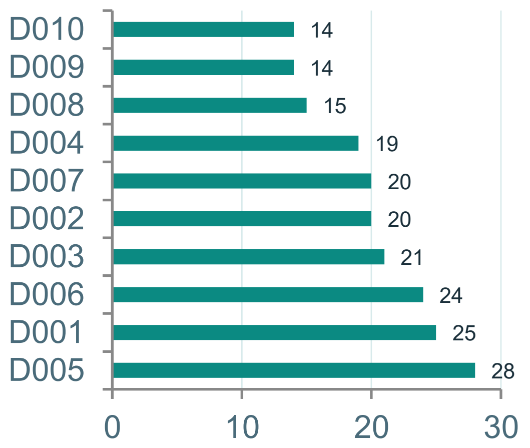
Patient Gender Split



Patient Age Distribution



Doctor Appointment Load



62% Male Patients

Men dominate utilization. Women's health programs are underdeveloped.

51+ Largest Age Cohort

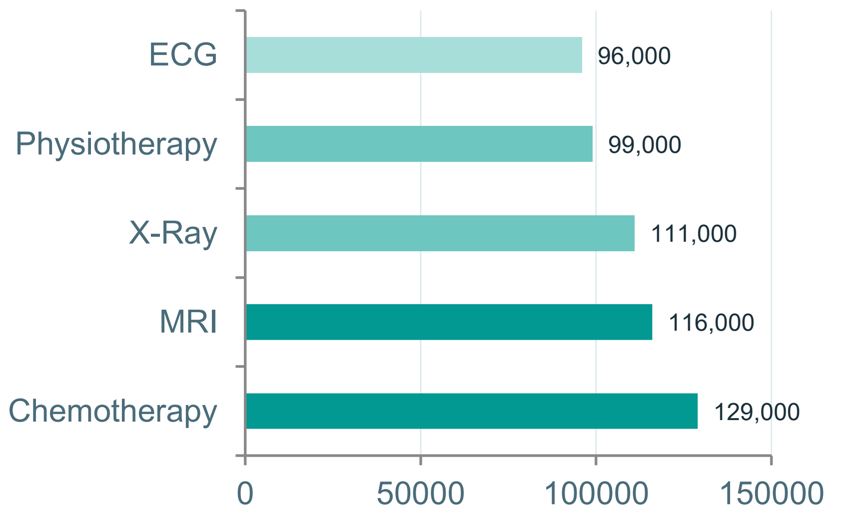
Aging patient base signals sustained demand for chronic disease & geriatric care.

Skewed Doctor Workload

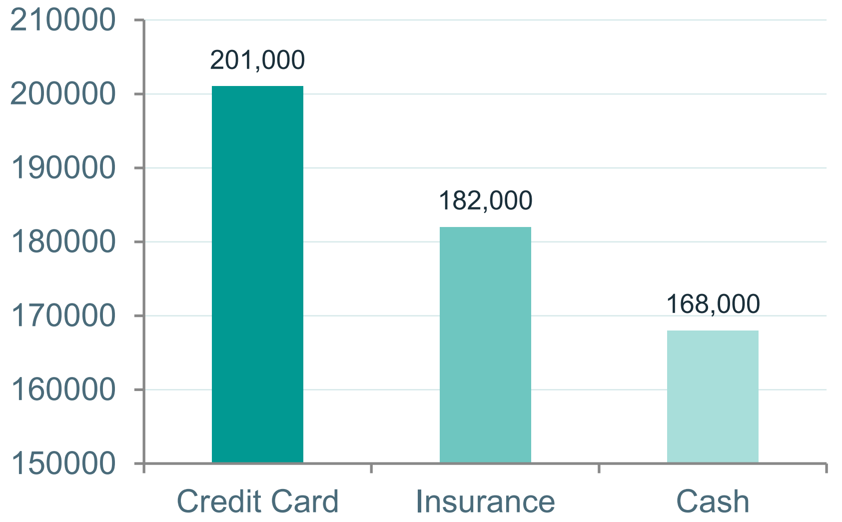
Top 3 doctors handle 38%+ of all appointments — burnout risk is high.

TREATMENT & FINANCIAL PERFORMANCE

Revenue by Treatment Type ($K)



Revenue by Payment Method

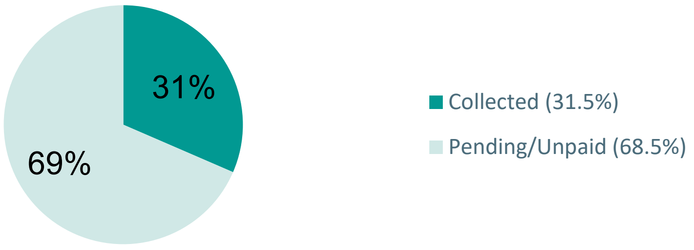


Chemotherapy + MRI + X-Ray = $356K (64.6% of total revenue). These 3 services are the financial backbone of the network. Credit Card leads payment methods at $201K (36.5%), but a 31.5% overall collection rate means $377K+ in billed services remained uncollected in 2023.

PAYMENT COLLECTION ANALYSIS

31.46%

Collection Rate — 2023



Revenue Leakage Breakdown

Total Revenue Billed

$551,250

Amount Collected (31.5%)

$173,418

Revenue Uncollected

$377,832

Root Causes:

- No automated billing reminders
- Slow insurance claims processing
- No self-service payment portal
- Minimal follow-up on overdue accounts

STRATEGIC RECOMMENDATIONS & IMPLEMENTATION ROADMAP

Priority	Recommendation	Timeframe	Expected Impact
🔴 High	Automate appointment reminders (SMS/email) & enable online rescheduling	0–3 Months	↑ Completion rate beyond 23% → direct revenue gain per appointment
🔴 High	Deploy automated billing reminders & self-service payment portal	0–3 Months	↑ Collection rate from 31.5% → recover ~$150K+ annually
🔴 High	Prioritize Chemotherapy, MRI & X-Ray: maintenance schedules + staffing	1–3 Months	Protect $356K (64.6%) of revenue from equipment/staffing failures
🟡 Medium	Replicate Central Hospital's best practices across Eastside & Westside	3–6 Months	Close $67K+ revenue gap per underperforming facility
🟡 Medium	Rebalance doctor workload — redistribute high-volume appointments	3–6 Months	Reduce burnout risk; improve patient wait times
🟡 Medium	Launch chronic disease & geriatric programs for 51+ age cohort	3–6 Months	Increase recurring patient visits and long-term revenue
🔵 Low	Diversify insurance partners; streamline claims management	6–12 Months	Reduce payer dependency risk; improve reimbursement speed

CONCLUSION

CareBridge Health Network: Strong Potential, Clear Path Forward

- $551.25K revenue generated across 3 facilities in 2023
- Central Hospital: 41.6% of network revenue ($229K)
- Chemotherapy, MRI & X-Ray drive 64.6% of revenue
- 23% appointment completion & 31.5% collection rate = key gaps
- Operational fixes — not expansion — are the fastest growth lever

Next Steps

0–30 Days

Deploy billing & appt. reminders

1–3 Months

Rebalance workloads & boost collection

3–6 Months

Invest in top services & clinics

6–12 Months

Diversify insurance & expand programs
